Subject: Re: Comments on State Bar Report

Mr. Einhorn, Mr. Rockford, and the Supreme Court,

Thank you for taking your time to address the issues addressed within the Task Force Report on the Role of the State Bar of Michigan.

I have previously responded, but am adding to that response.

I am unclear on the nexus between Keller compliance and changing the SBM rules concerning the structure of the RA. I am unclear on why the RA should have mandatory input into the meeting agendas of the BOC, and vice versa. Why is the timeline for such serious changes so quick?

Isn't there an easier way to resolve this? I am dissatisfied as a state bar member that all of this time and money is being spent on this issue; I was fine with the state bar, including the letter that spurred all of this, and I am bothered by the waste of resources being spent on the follow up. If everyone involved funneled their time and energy spent on this into some pro bono work instead, we'd be serving a much better purpose.

Sincerely,

Deborah Rysso
